

# **rABS Bluetooth eco Speaker**

This compact Bluetooth speaker is designed with sustainability at its core, crafted from eco-friendly rABS recycled plastic. Its minimalist, modern body isn't just stylish- it's a conscious choice for the planet. With a 500mAh battery, it offers 2 to 6 hours of playback depending on volume, making it perfect for everyday listening. This speaker really is proof that great audio and eco-conscious design can go hand in hand. The flat front surface also allows for full colour branding, making it ideal for companies looking to promote their message with a sustainable edge.
