

ecopad

wireless charging

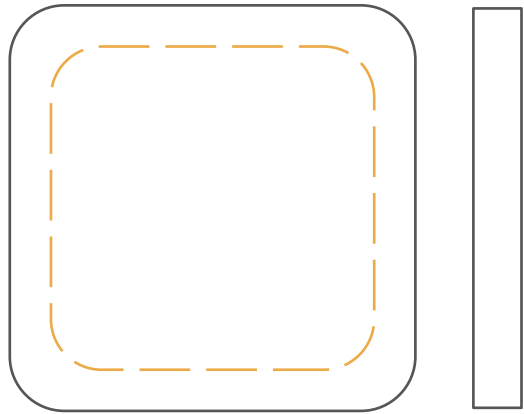

Introducing the eco-friendly Wireless EcoPad- a multi-functional promotional product that supports wireless charging and has an optional wired charging model with two built in USB ports. Made from recyclable wood, the EcoPad is an environmentally friendly alternative to the traditional plastic wireless charging pads. Catering for any device- the EcoPad can charge any wireless-enabled device, and is available with two USB ports if required. Being eco-friendly and boasting a large branding area for engraving, the Wireless EcoPad is the perfect corporate gift for promoting any brand!
