

Introducing the latest addition to our drinkware range, the Hand Warming or Cooling, **Smart MOJO Bottle!** The Hand Warming Bottle matches the temperature of the beverage inside the bottle by using heat transferring materials inside. Match the temperature by simply shaking the bottle from side to side for 3 seconds and watch the bottle warm up or cool down. With a capacity of 420ml, this refillable bottle will see you through the day no matter what the weather.

*Please note: These product images are used for illustration purposes only and the colours of the final product may vary slightly.

Technical Specification

Material: Stainless Steel, Heating Agent, Silicone
Capacity: 420ml
Double Walled
Hot or Cold Beverages

This product uses a heat transfer material inside the layers of the bottle to warm or cool the outside surface. The temperature of the bottle can be changed by shaking. Shake for 3 seconds from side to side to slowly match the temperature inside the bottle.
