## MiLi Table Mate

### Space-Sperated Table Wireless Charger

Using the wireless charging technology of magnetic resonance, the wireless charger is applied to the table made of non-metallic material to provide charging for the mobile phone.

Oil-proof and  
waterproof

Security  
Authentication

Installation  
under table

# TableMate

**A wireless charger that can be attached to a table for convenient usage**

•Magnetic resonance technology is used to separate the sensor post from the transmitter.

0.6mm super thin sensor tape: Providing a more stable charge for your phone and a clean table space.

•Supports 20-35mm desktop thickness between the transmitter and sensor post.

No modifications are required to be made to the original furniture as a result of the installation process.

# Advantages

Easy installation, low cost upgrade furniture, optimize store experience

## Widely used

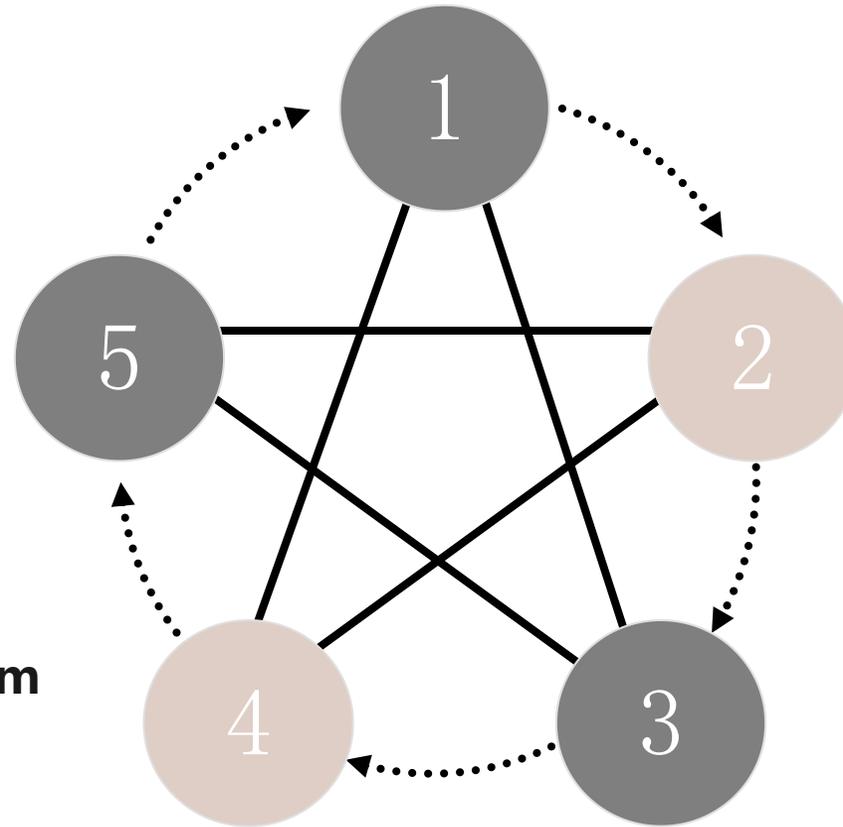

Can installed on non-metallic tables, such as wood, glass, marble, ceramics, etc.

## table thickness 20-35mm

no need to renovate the furniture. will keep running wireless charging when table thickness is between 20 and 35 mm.

## Convenient charge

Supporting wireless charging of mobile phone, etc. simple and convenient

## Save space

transmitter is installed under the table, 0.6mm ultra-thin sensor paste, not occupy the desktop space.

## Easy installation

no need to alter the furniture, just stick the transmitter under the table.

## Advantages

Optimizing Consumption Experience / Customization / Store  
line drainage

# ( 1 ) Optimizing Consumption Experience

The convenient experience of wireless charging brings the optimization of consumption experience, and consumers go out to save the trouble of taking charging treasure.

## ( 2 ) Customization

Sensor paste can make customization, customize the logo to be suitable for the scene style.

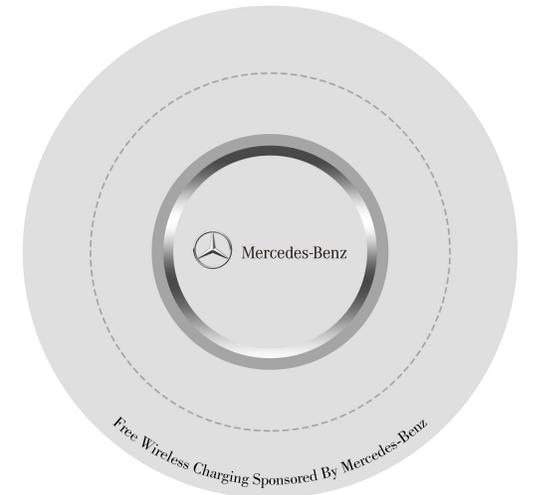

Case

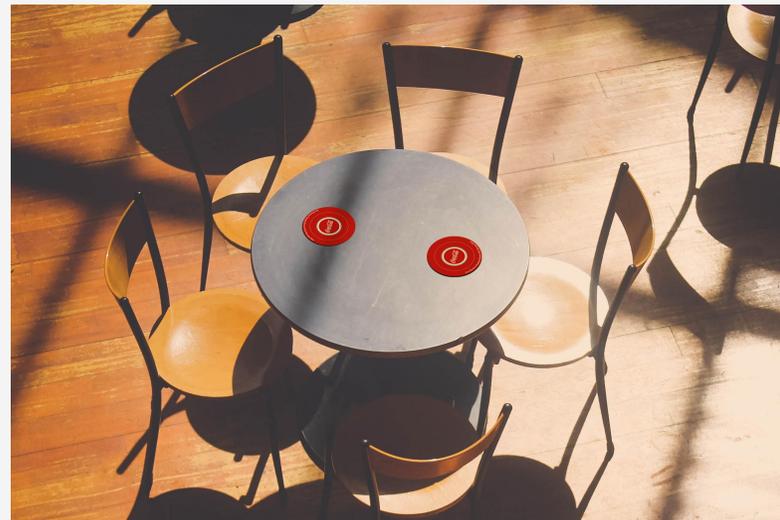

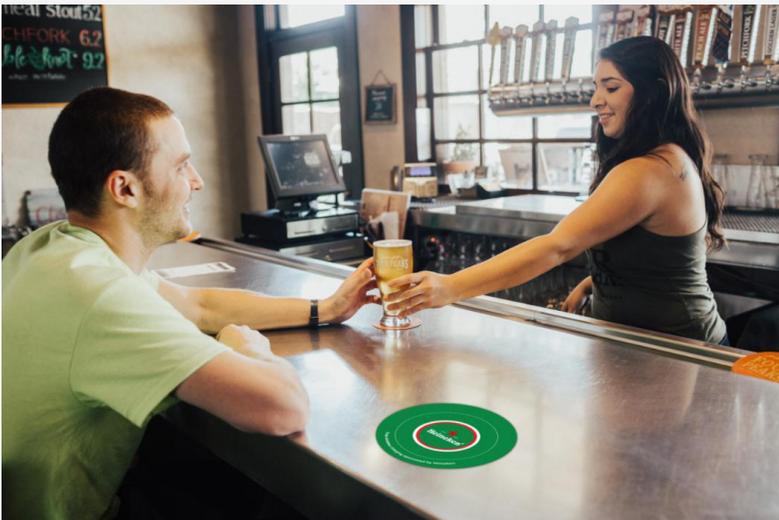

### ( 3 ) Advertising space rental

Merchants can rent out the part of the logo customization as advertising space to relevant cooperative brands and charge advertising fees

For example, heineken, Pepsi, Coca Cola and Mercedes Benz can be customized for brand promotion

## MiLi Tablemate Space-Separated Table Wireless Charger

## Case example

1. A brand which sells drinks, and buys this product which will print their logo or other advertising information on it, and they send it to the Bar or Restaurant as a gift when they order their brand's drinks,

2. And for the boss must have very pleasure to put it on the table, because it will enhance their shop's experience level,

3. The store such as the restaurant, visitor flow rate is huge, which must make an effect for the sales of the brand, also the spread degrees.
