

NOVA CUP

Ceramic Coated Interior Infused
Double-Insulated Stainless Steel

The Nova Cup combines high-quality double-wall insulated stainless steel with a premium ceramic-lined interior to deliver exceptional drink performance and taste. The ceramic coating prevents metallic flavours and lingering odours, keeping beverages fresh and easy to clean, while the insulated stainless-steel construction keeps drinks hot or cold for multiple hours. Designed for maximum brand impact, the Nova Cup offers complete full colour coverage alongside precision rotary engraving, ensuring logos are bold, durable, and long-lasting. With a capacity of 450ml, it's a premium solution for promotional campaigns, corporate gifting, and lifestyle merchandise.
