

# SMART POWER TOWER

The Smart Power Tower is an executive style powerbank with a function button, working indicator light and built in intelligent over charge and discharge protection. The Smart Power Tower is suitable for charging mobile phones, MP3/4 players, digital cameras and portable gaming devices. The aluminium casing provides an ideal surface for laser engraving but screen printing options are also available.

The Smart Power Tower comes supplied in a clear plastic presentational box and includes a user manual and a micro USB charging cable for charging the powerbank.

Material: Aluminium
